DETAILED ACTION

Status of Claims

1. Claims 1-21, filed March 17th, 2009, are currently under examination.

Allowable Subject Matter and Rejoinder of Process Claims

2. Claims 8-21 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1-7, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on March 24th, 2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Consequently, claims 1-21 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 1793

The prima facie case of obviousness has been rebutted by a demonstration of unexpected results as explained in Applicants' remarks (p. 10-11) March 17th, 2009, pointing to evidence present in the Specification as originally filed at Fig. 1. The unexpected results are the significant reduction in oxide concentration within the claimed range of Li content, which is commensurate in scope with the claim as it contains a sufficient number of tests both inside and outside the claimed range to show the criticality of the claimed range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark L. Shevin whose telephone number is (571) 270-3588 and fax number is (571) 270-4588. The examiner can normally be reached on Monday - Friday, 8:30 AM - 5:00 PM EST.
